

JOB TITLE: Trading Specialist

COMPANY: ACR Alpine Capital Research, LLC is a \$12B+ AUM fundamental value manager serving financial intermediaries and institutions with concentrated equity, credit, and multi-strategy vehicles. ACR is headquartered in St. Louis, Missouri. For additional information, please visit www.acr-invest.com.

RESPONSIBILITIES: The candidate will report to the COO and be responsible for production trading and support, and when possible, support to the Head Trader & Trading Infrastructure Lead as a member of the ACR Trading & Operations team. This individual will be a junior on the team, taking direction from all senior members of the Trading Desk

- Order Generation & Trade Routing – Responsible for the order generation and routing of trades related to daily cash flows, new accounts, liquidations, tax harvesting, and more. Essentially what we define as Production Trading.
- Maintenance Trading – Monitoring portfolios, generating, and routing orders for portfolios with positions drifting away from strategy targets.
- Strategic Trading – Support Head Trader and Investment Team for strategy-level trading (block; algorithms).
- Client, Counterparty & Vendor Relations – Maintain relationships with Financial Intermediary Clients, vendors, and trading counterparties
- Clearing/Settlement/Allocation – Take responsibility over daily post execution workflows to support clearing, settlement, custody, and trade reconciliation
- Assist in the monitoring and reporting of pre-trade and post-trade compliance reporting
- Enterprise Reporting – Support trade operations reporting functions covering, security master, trade aways, fees, commissions, strategy positions, etc
- Project Management – Work closely with COO, Trading & Operations Infrastructure Lead, Head Trader and ACR Operations in the advancement of process and systems via the management of trading, operations, and enterprise projects.
- TCA/Best-Execution – Support Head Trader in the production of Brokerage Committee material and analysis.
- Relocation to St. Louis – in-office position on ACR Trading Desk.

QUALIFICATIONS: The successful candidate will be experienced in trading operations and equity market structure mechanics, highly curious with a desire to question and improve process, independent thinking but very team oriented, rational, and self-starting trading/operations professional.

- Highest level of integrity and ethical standards.
- Excellent analytical and critical thinking skills.
- Strong mathematical skills with a keen attention to detail.
- Excellent communication and writing skills.
- Ability to multi-task in a high-pressure environment.
- Good working knowledge of equity market structure, trading markets and systems, and associated market participants.
- Expertise in Microsoft Business Suite/Applications
- Experience with Order Management Systems , Execution Management Systems, and Portfolio Accounting Systems
- Experience with both institutional brokers & retail custodian trading platforms
- Understanding of US & International Equity Post-Trade clearing & settlement structures
- Two years relevant trading/operations/industry experience preferred.
- Undergraduate college degree preferred.

LOCATION: St. Louis, Missouri, USA

COMPENSATION: Excellent total compensation and benefits package opportunity.

WHERE TO APPLY: Submit CV or resume to mnakum@acr-invest.com
